

Reduce Energy at Work and Save Money

- Do you want to know where energy is being used in your workplace?
- Do you want to save energy and money?

An energy audit will help you to do both.

If you are a registered business or organisation in the Kimberley or Pilbara region, you can register now for a free energy audit*:

Following the audit, you will receive a report identifying potential energy savings including costs and savings achievable. Further government rebates may also be available.

A small registration fee of \$50 to \$200 may apply, depending on the energy use of your business or organisation. Numbers of audits are limited.

You must register by 2 November 2009. Registration forms can be found at sedo.energy.wa.gov.au

For further information, email reepenergyaudits@energy.wa.gov.au

Government of **Western Australia**
Sustainable Energy Development Office

Australian Government
Department of the Environment, Water, Heritage and the Arts

The energy audits are jointly funded by the Australian Government through the Regional Energy Efficiency Program and the State Government's Sustainable Energy Development Office.

*See www.sedo.energy.wa.gov.au for full eligibility criteria details. Offer is only available in areas outside Western Australia's main South West electricity grid.
